

# AD-2 Series Air Blow Gun

Air blow gun AD-2 series are designed with polyacetal plastic for its oil resistance, anti worn-out characters different from regular metal housing. Simple mechanism produces high functions. Main parts remain with stainless steel and brass for trouble free.

## AD-2-300N

Ideal for dusting at difficult-to-reach area with standard Nozzle type.

## AD-2-100N

Ideal for dusting at difficult-to-reach area with standard Nozzle type.

## Specification

- Apply locally sold air coupling to this air inlet fitting.
- Max. fastening torque to above fitting requires 80Kgf.cm (8nm) or less.
- Apply air tight (sealed) tape over the threads of air coupling in order to avoid air-leakage.

	Specification
Working Medium	Compressed air
Highest Working Pressure	9.9Kgf/cm <sup>2</sup>
Working Temperature Range	0~60°C(32~140°F)
Connecting Thread	PT 1/4 ( Rc 1/4 )
Applied for Caliber	4mm
