

ACCESSORIES

- *1pc nozzle
- *1pc spray gun
- *1pc 10m high pressure paint hose
- *1pc 50cm extensionbar

450 Piston Spray Machine

Technical Data

Voltage/Hr	220V-240V50Hr
Rated Power	950W
Max pressure [Mpa]	20
Working Pressure [Mpa]	15-18
Nozzle Size	517 (0.017")
Max Nozzle Size	519 (0.019")
Flow [L/Min]	1.7
Hase Length	10M
Net Weight (cgs)	17
Package	Carton box

Description:

Used for spraying on wall surface and metal and surface, especially suitable for surface spraying processing of building equipment such as interior and exterior wall, office building ,villa, hotel shipbuilding, steel, structure and bridge in modern building decoration industry . It an essential tool for modern surface spraying.

Advantage:

1. Electronic variable pressure control.
2. Heavy duty piston pump.
3. Easy change filter.
4. Heavy duty metal consuction.
5. Heavy duty siphon metal pickup and return tubes.
6. Easy turn siphon swivel with easy remove erasure for fast cleaning.
7. Heavy duty non-adjustable. easy to replace packing.
8. Includes heavy duty airless spray gun and tip extension.
