

Applications & Features:

- High transfer efficiency.Durable and stable performance
- Reliable choice for medium viscosity painting of middle, & prime coating on cars, machinery, furniture and etc.
- Colors available: polished original metal color, powder coating in any colors, chrome-plated, nickel-plated, different anodized colors.

HVLP GRAVITY SPRAY GUN

- It makes an excellent surface finish while saving paint.
- HVLP technology realizes painting with less force,less bouncing-off paint.
- Stainless steel needle and nozzle allows water-based material

MINI AIR GRAVITY SPRAY GUN

- Light weight,easy to control, perfect for touch-up and detail work..
- Three adjustments for stepless,round,and flat spray.
- It makes an excellent surface finish while saving paint.
- HVLP technology realizes painting with less force, less bouncing-off paint.
- Stainless steel needle and nozzle allow application of water-based material

ST 500

PRO SPRAY GUN

SURFACE PAINT EXPERT

100% CNC Machine Process
Performance Inspection

Features

- ▶ Fine and perfect atomization, high spray range reaching up to 300mm, paint transfer rate up to 65%.
- ▶ Paint cup with POM material, high anti-corrosion, long durability, fluid inlet thread is quick and easy to join, for rapid replacement and cleaning, with high sealability.
- ▶ Teflon gun body, surface with special treatment, high anti-corrosion and easy for cleaning and maintenance.
- ▶ Gun body and air nozzle was one-shot fine processed in CNC machining center, with high precision and perfect surface visual effect.
- ▶ Nozzle and needle with stainless steel material, long lifetime reaching up to 200,000 times.
- ▶ Atomization regulator allows an easy and quick adjustment with just 1.5 turns, easier for end users to adjust atomization effect.
- ▶ Applicable to 0.2-0.5MPa working pressure, wide working pressure range.

Application:

Suitable for water-soluble paint and a variety of spray paints such as metallic paint, varnish and wood lacquer etc., dedicated to car repair industry, top quality furniture, and other precision equipment which need fine surface finishing.
